

We are the specialists

With modern machines, expertise and qualified employees we are able to produce complicated parts economically. The core of our production is the moulder "Unimat 1000 Star" from Weinig.

The new moulder with demand-function makes production almost as easy as making a phone call.

Advantages:

- quick and easy setup of the machine
- shorter setting up time
- no handling errors
- less reworking
- less scrap
- reduced costs per piece
